

Application No.: 10/091,945

Docket No.: JCLA6897-R

REMARKS

The Advisory Action dated November 6, 2003 stated that Applicants' response to the Final Office Action does not place the application in condition for allowance. In response thereto, Applicants respectively request continued examination of the present application in consideration of the above Amendments.

Upon entry of the amendments, claims 1 and 10 are amended to further define the invention. The insertion of the phrase "without any sandwiched layer except adhesive material" is supported by, for example, Fig. 7 in the drawings of the original application, wherein, use of an adhesive material is allowed inherently. The insertion of the phrase "formed through the insulating layer and the patterned wiring layer and" is supported by, for example, the specification, in paragraph [0022], lines 5-7, and Figs. 2, 5 and 7-8. Hence, claims 1, 7, 8, 10, 13 and 14 remain pending in the present application, with claims 1 and 10 being independent claims.

Applicants believe that the foregoing amendments do not introduce new matter. The above claims are submitted to be patentable over the prior art of record. Accordingly, favorable consideration of the application, as presently amended, is respectfully requested.

Application No.: 10/091,945

Docket No.: JCLA6897-R

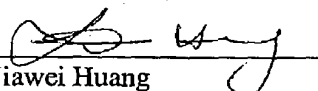

CONCLUSION

In view of the foregoing, Applicants respectfully request continued examination of the above-identified patent application. It is believed that the pending claims 1, 7, 8, 10, 13 and 14 are in proper condition for allowance. If the Examiner believes that a telephone conference would expedite the examination of the application, the Examiner is invited to call the undersigned.
